## 7<sup>th</sup> Annual Haspin Acres Halloween Haunt & Toy Drive

Well, instead of rain like last year, Mother Nature served up some 50 degree weather with 20-30 mph winds last weekend. After a long 12 hour day, Fat Boys Jeepers along with members from Miami Valley Four Wheelers and Muddy Buddys, collected close to 400 toys and over \$1500.00 in cash donations. Included in the cash donation amount were the proceeds from both event shirt/sweat shirt sales and raffle ticket sales. Toys collected at this event will serve the children of east central Indiana and west central Ohio.

### FAT BOYS JEEPERS CHRISTMAS PARTY

**6:00- 8:00pm-** Dinner. Menu listed below.

**8:00- ????**- Fun, games and Cut-throat/White Elephant gift exchange .

"Cut-throat/White Elephant" gift exchange after dinner. Please bring a wrapped Jeep or off-road related gift in the \$10 value range. Do not label to reflect a

specific sender or recipient. Gifts can typically be inexpensive, humorous items or slightly used item of interest. All participants draw a number to determine their order.

The participant with #1 unwraps any gift from the pile and then shows it to everyone. Each successive participant, in the order determined from the drawing, or in clockwise or counterclockwise order, can either... 1) "steal" an already opened gift (if there's one they really like) or 2) be adventurous and go for a wrapped gift from the pile. If the participant chooses to steal, the person whose gift is stolen now repeats his turn and either... 1) steals another person's gift (he cannot immediately steal back the gift that was just stolen from him) or 2) unwraps a new gift.

This cycle of stealing can sometimes continue for a long time, until a new gift is chosen, at which point the turn is passed to the participant with the next number from the drawing, or whoever is next in the circle, whichever arrangement is chosen.

Since items can be stolen, the item in your possession is not yours until the game is over. However, this is often amended with a rule declaring a gift "dead" or "safe" after it has been stolen a certain number of times (usually two or three). This helps the process go more smoothly (avoiding, for example, the hypothetical scenario of the same gift being stolen by every successive participant) and limits the disadvantage of being among the first to choose gifts. The game is over once all gifts have been opened.
